

# Quick Analysis of New York Flights Data

*Jonathan*

*April 22, 2018*

The dataset contains 336776 flights by 16 different airlines, flying from 3 New York airports to 105 destination airports. The average delay of all flights is 12.6 minutes.

The Table shows the average delay for each New York airport.

Table 1: Average Delay by Airport

Airport	Average Delay
EWR	15.1
JFK	12.1
LGA	10.3

The graph shows the relationship between the time of departure and the delay.
